

REMARKS

Claims 1 and 3 - 15 are in the application.

Turning first to the objection to the disclosure in the first paragraph on page 3 of the Office Action, the Examiner is respectfully advised that this Divisional Application was inadvertently filed with the drawings of the parent application.

Submitted herewith are drawings Figs. 1-5 which correspond to the specification of the application.

No new matter is being introduced with the substitute drawings because Fig. 1 of the original drawings is identical to Fig. 1 of the substitute drawings, Fig. 17 of the original drawings is identical to Fig. 2 of the substitute drawings, Fig. 18 of the original drawings is identical to Fig. 3 of the substitute drawings, Fig. 19 of the original drawings is identical to Fig. 4 of the substitute drawings and Fig. 20 of the original drawings is identical to Fig. 5 of the substitute drawings.

With respect to the objection to the drawings in the first paragraph on page 2 of the Office Action, it is respectfully pointed out that the "U-shaped cable holders" are the U-shaped cable holder devices 21' shown in detail A of Fig. 2, the "clip-

IN THE DRAWING:

Replace the originally filed drawings with the enclosed drawing, Figs. 1 - 5.

on tool holder devices" are denoted by reference numeral 22" in Fig. 3, and the "holder rails" are denoted by reference numeral 115 and shown in Fig. 4. The feature of the panels of different heights has been deleted from claim 6 and replaced by the feature according to which the side wall panels 114 have a smaller height than the rear wall 9. This feature is clearly illustrated in Fig. 4 of the drawing.

Accordingly, the objection to the drawings should be withdrawn.

As a result of the foregoing amendment, the subject matter of claim 2 has been included in claim 1. Accordingly, inasmuch as the Examiner has indicated that claims 2-9, 14, and 15 would be allowable in independent form, it is submitted that the claims presently in the application are in condition for allowance.

In amending claim 1, the feature of claim 2 has been modified to read that the cutout passages are configured to receive clip-on devices. Since this language is used also in dependent claims 3, 5 and 6 for the same elements, it is submitted, that no new matter has been added as a result of this change.

Therefore, in view of the foregoing, it is submitted that this application is now in condition for allowance and such allowance is respectfully solicited.

Any additional fees or charges required at this time in connection with the application may be charged to Patent and Trademark Office Deposit Account No. 11-1835.

Respectfully submitted,
FRIEDRICH KUEFFNER
